RE: Letter of Recommendation for Nandala Shivakiran

To whom it may concern,

It is with great pleasure that I write this letter of recommendation to express my utmost support for Mr. Nandala Shivakiran who was my direct reportee. He worked as a Design Engineer with CYIENT on Geared Turbofan Engine (PW1100G-JM) Fan Case and Low-Pressure Compressor parts Design. During his work period for 2 years, Nandala Shivakiran was primarily responsible for Non-Conformance, OTC and Quality Non-conformance evaluations, reviewing and delivering the documents. He also contributed in preparing Standard Work Instruction documents. During his period, he trained 3 new associates on regular NC's. Also, worked on Process Improvement tasks.

As a Design Engineer, he has brought strong process improvement ideas to our project. The tool developed by him using Robotic Process Automation has helped to increase productivity and avoid any error while executing the task. Also, he independently enrolled in UiPath RPA training and certifications to enhance his skills. Without a doubt, his initiative here helped in our team.

I can say with absolute certainty that Nandala Shivakiran is very capable of executing tasks independently as well as with the team. He has a friendly and outgoing disposition as well as professional work ethics. I am certain that he is highly qualified and will make a great addition to your organization. I wish him all the best in his future endeavors.
